EE017-6-3-PP2 Project Phase 2 – Implementation in Engineering Project

Chapter 4 : Final Design & System Implementation

Topic Learning Outcomes

At the end of this topic, you should be able to:

1. Develop solution to implement the proposed methodology and discuss the project outcomes by incorporating public health and safety, whole-life cost, net zero carbon as well as resource, cultural, societal, and environmental considerations. (C6, PLO3)

Contents & Structure

- Introduction
- System Implementation
- Hardware and/or Simulation Results
- Summary

Recap From Last Lesson

- Nil

Key Terms You Must Be Able To Use

If you have mastered this topic, you should be able to use the following terms correctly in your assessments:

- System Implementation
- Simulation/Hardware Results

Chapter 4 – Final Design & System Implementation

Outline

i. Introduction
ii. System Implementation
iii. Hardware and/ or Software Results
iv. Summary

I. INTRODUCTION

- Give a brief background about the chapter.

II. SYSTEM IMPLEMENTATION

- Overall block diagram of the entire system with explanation.
- Constructional details – explain how the entire system is connected and explain with the help of a wiring diagram. Avoid using snap shots of the system developed.
- Programming (optional) – Explain the pseudo codes.
- Explain only the main codes and the remaining codes can in appendix (must be less than 8 pages), and if it is more than that must be in the CD.
- Working principle – Explain the working principle of the entire system with the help of a flow chart.

III. HARDWARE AND/OR SIMULATION RESULTS

- Include up to four images in this section covering the entire project implemented with a brief explanation.
- Do not pad with images of the results, if necessary, can be added in appendix.

IV. SUMMARY

- Summarize the entire chapter.

Do Not Forget !!

- Discuss the project outcomes by incorporating public health and safety, whole-life cost, net zero carbon as well as resource, cultural, societal, and environmental considerations.

QUICK REVIEW QUESTIONS

- What must be used to illustrate the system implemented?
- What must be used to illustrate the working principle?

SUMMARY OF MAIN TEACHING POINTS

- System Implemented
- Software/Hardware Results

QUESTION & ANSWER SESSION

Q & A

WHAT WE WILL COVER NEXT

- Discussion - Project Findings & Testing
